si sposa bene

## INVITATION

### TO A BOOK RELEASE AND FESTIVAL DINNER

Chef and waiter students from Copenhagen Hospitality College have during a period of only 10 weeks worked on making a cook book under the theme 'grappa, aquavita, wine, and local ingredients from Friuli'. The students have used the distillates and local ingredients as a central element in their cocktails and dishes. The project has been a co-operation between Copenhagen Hospitality College, photo students from KTS in Copenhagen and Enogastronomia by Robert together with ELLO Supermarco in Copenhagen.
